

## A2L refrigerant use with Testo products

Titisee-Neustadt, 2021/01/21

**Product:**            **testo 549i, testo 552, testo552i,**  
                              **testo 549, testo 550, testo 557, testo 570,**  
                              **testo 550s, testo 557s, testo 550i**

A2L refrigerants are classified with low flammability according to the ISO 817 standard. Appropriate safety measures must be taken when handling these refrigerants.

The mentioned Testo products are - in compliance with the relevant laws, standards, guidelines of refrigeration authorities (such as EN 378 part 1-4), as well as the regulations of the manufacturer - suitable for use with A2L refrigerant.
